Professional Development

Designing Learning with Purpose

Five online Workshop sessions highlighting usability, accessibility, online learning strategies, and design

Karen E. Ballengee

Topics for PD Sessions

01 **Usability for Learning**

02 **Multimedia & Document Accessibility**

03 **Building Community in Moodle**

04 **Interactive Learning with Moodle + H5P**

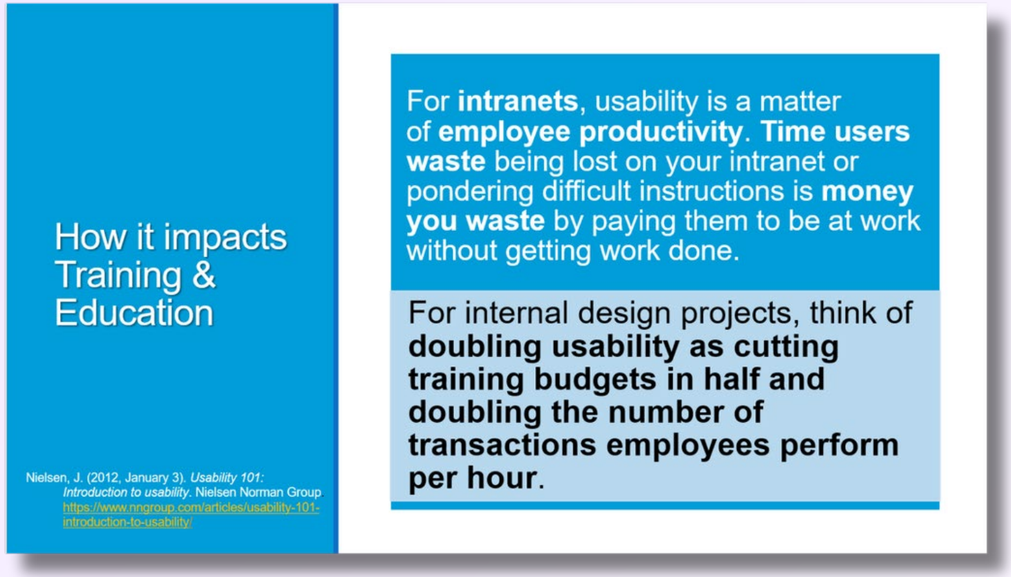

05 **PPT Design Beyond Bullet Points**

Designing for Usability

Clear navigation and consistent layouts help learners find information and focus on learning.

My focus

I help facilitators to recognize design choices that reduce confusion in digital learning.

Accessibility from the start

Meaningful headings, descriptive links, alt text, and captions make digital content easier to access.

My focus

I incorporate accessibility into the design process for documents and multimedia.

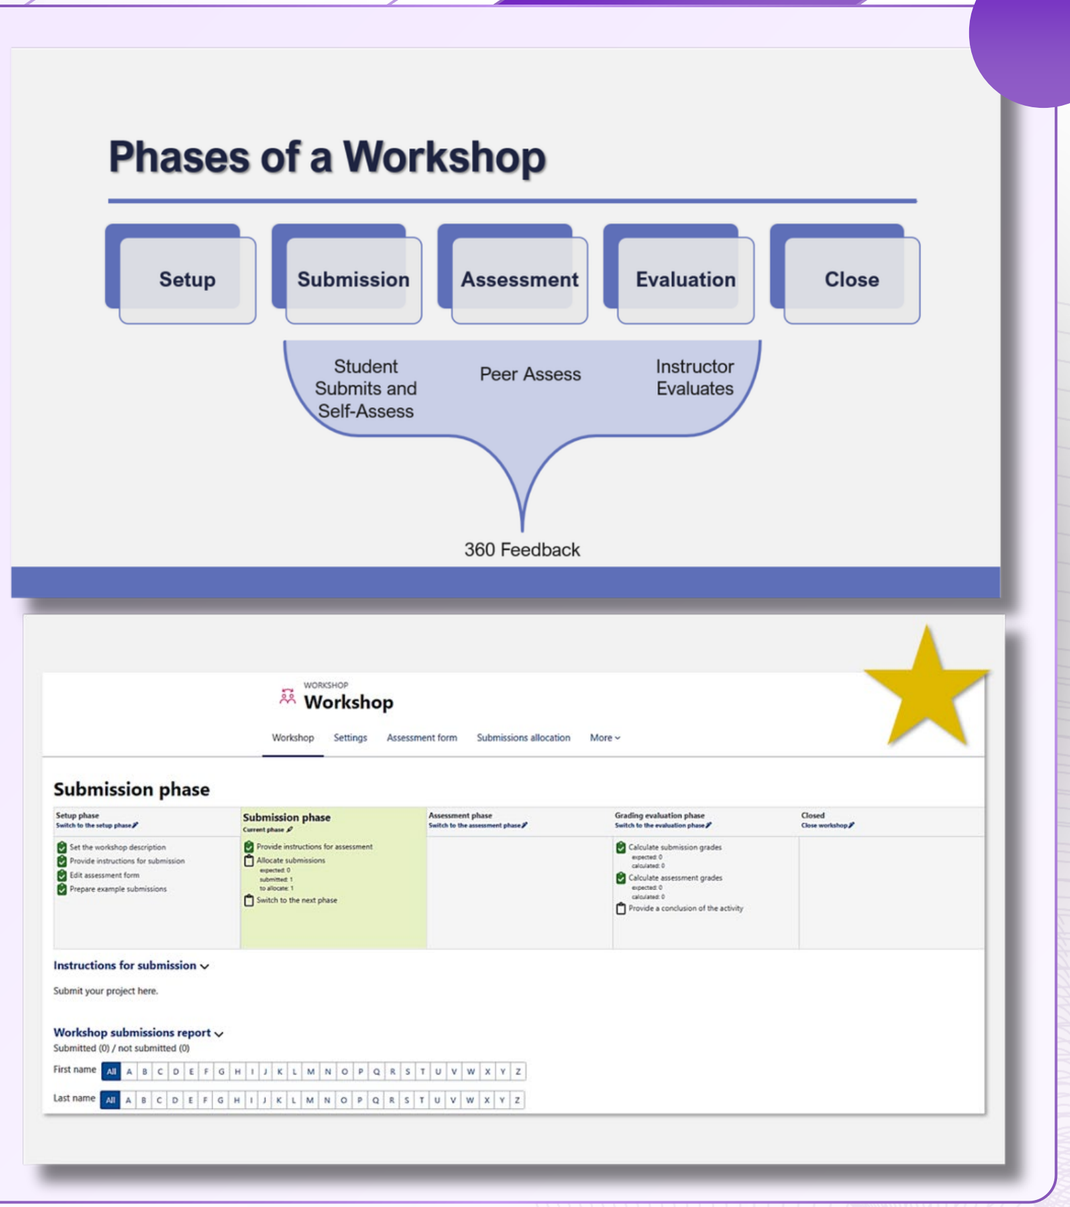

Building Community in Moodle

Purposeful opportunities for communication help learners connect with their instructor and one another.

My focus

I connect Moodle tools with strategies for participation and a sense of belonging.

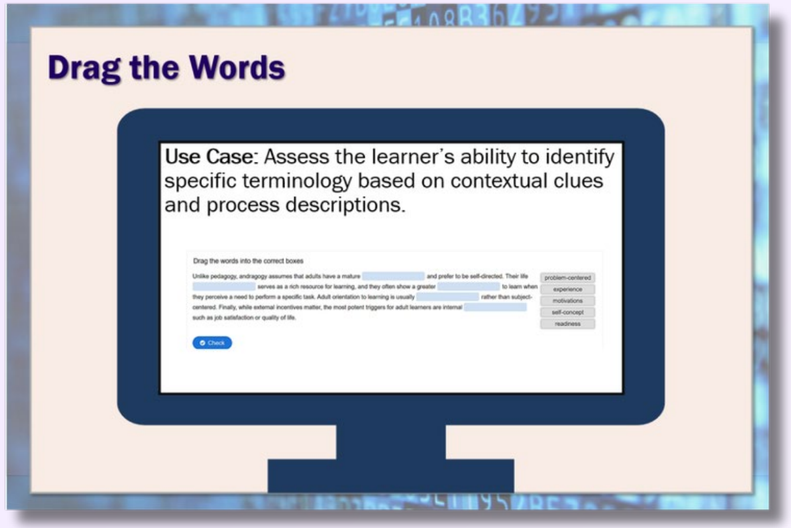

Creating Interaction with H5P

H5P activities create opportunities for practice and feedback within a Moodle course.

My focus

I emphasize choosing interactions that support the learning goal.

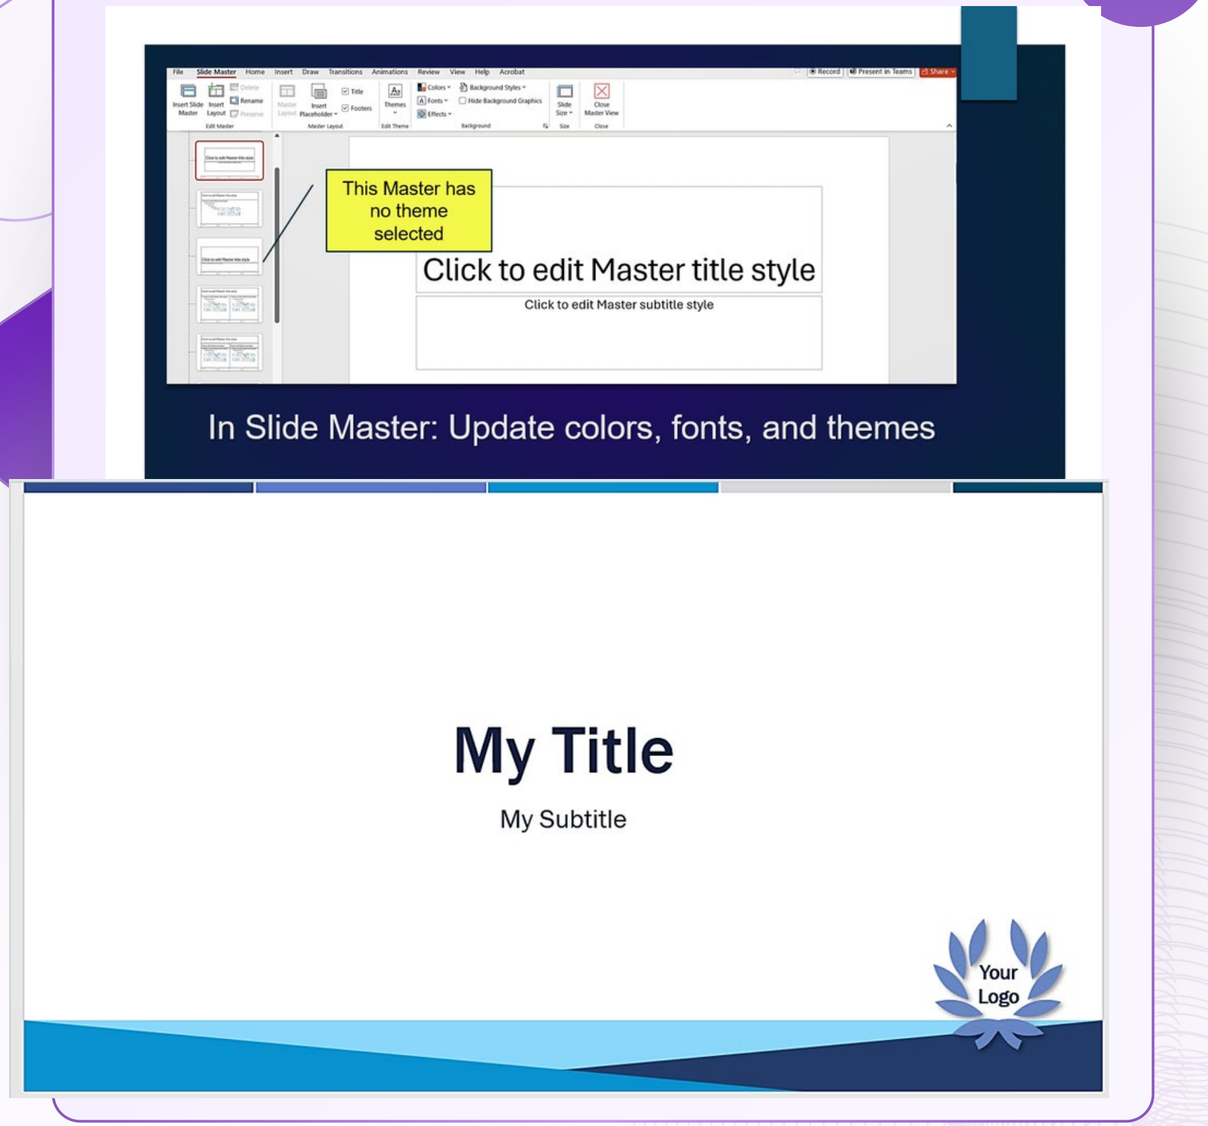

Going Beyond Bullet Points

Consistent design and purposeful visuals make instructional slides clearer and easier to follow.

My focus

I show educators ways to simplify PowerPoint development and communicate visually.

My Approach
to Professional Learning

Explore the complete presentations and accessible PDFs on my portfolio.

DESIGN

I translate learning design principles into strategies educators can apply.

DEVELOP

I create PowerPoint presentations that explain practices through examples.

FACILITATE

I deliver online lunch-and-learn sessions for educators and instructional developers.
